Interested in living and studying with other first-year students who share similar interests? Salisbury University invites you to learn more about our freshman Living Learning Communities (LLC). Features include:

- Live together in the University’s residence halls
- Share common courses in the fall and spring, with required out-of-class, experiential learning activities
- Benefit from a faculty mentor who encourages you to carry great classroom conversations into your residential community
- Participate in trips and activities designed to bring the community theme to life

**Housing With You In Mind**

All LLCs are located in our residence halls with access to:

- Smart classrooms that double as study areas
- Large common areas, complete with flat-screen TVs and pool tables
- Free, high-efficiency laundry units with electronic notifications on your phone
- Rooms designed to create unique, suite- or cluster-style spaces for a community feel
- Guidance to find the right next step in student housing as you prepare for your second year at SU

**Learning Communities**

When you participate in one of Salisbury University’s LLCs, amazing learning opportunities are yours:

- Be part of an engaged learning community that goes beyond the traditional classroom experience
- Develop your leadership skills by helping to organize events for a vibrant community
- Jump start your college career by establishing connections with faculty and other student leaders
- Explore your academic options and focus your interests in an area in which you are passionate – identifying future opportunities for research, internship and study abroad
- Understand how your courses connect with each other and gain an expanded perspective on your education
- Meet people from different backgrounds and network with University faculty and staff
- Maximize your academic success by immersing yourself in the SU experience

Continued on back.

"I really like that our classes are in the residence hall and that the people I live with are all my major. We are able to study and work on projects together. It's great to live with people with whom you can relate!"

– Elementary Education LLC Participant
Because artists know that real learning happens between the lines, this LLC of art majors and minors allows you to develop your passion beyond the studio with trips to big city museums and personal interaction with visiting artists.

- Fall: ART 130 - Drawing I
- Art History
- Spring: ART 201 - Art History

Biology

Biology majors make lasting friendships as you explore local ecosystems, participate in outdoor team challenges and plan group activities.

- Fall: CHEM 121 - General Chemistry I
- BIOL 210 - Biology: Concepts & Methods
- Spring: ENGL 300 - Special Topics: Science in Literature

Campus & Community Engagement

This LLC is for students interested in learning about their new community. Courses and experiences encourage active involvement through events and projects that promote connections on campus and with the broader Salisbury community. It provides students with transformative experiences, including group trips, networking opportunities, outreach and projects to improve life on SU's campus.

- Fall: ENGL 103 - Composition and Research
- POSC 101 - Introduction to Politics and Government
- Spring: EDUC 210 - School in a Diverse Society

Communication Arts

Students majoring or minoring in communication arts (CMAT) explore this diverse field as they learn about local media outlets, interact with successful CMAT alumni, work with nonprofits and travel to New York City.

- Fall: CMAT 102 - Introduction to Mass Media
- Spring: BIOL 150 - Environmental Science
- CMAT 191 - Introduction to Human Communication Studies

Education - Elementary

Elementary education and early childhood/elementary double majors connect with the local education community through mentorship relationships and humanitarian outreach projects. In addition, they explore education issues through field trips at the local and national level.

- Fall: ELED 201 - Introduction to Teaching
- MATH 130 - Fundamental Concepts
- Spring: GEOG 104 - Earth & Space Science

Education - Secondary

This LLC is for students who want to pursue the transformational field of teaching in grades 6-12. The ability to impact the life of another person by adding value is fostered consistently within the cohort. Members are mentored by exemplary Professional Development School faculty and staff during their field placements.

- Fall: EDUC 210 - School in a Diverse Society
- FTWL 106 - Lifelong Fitness and Wellness
- Spring: HIST 102 - World Civilizations II

Entrepreneurship (2)

Students interested in turning their ideas into business opportunities are invited to join this creative and innovative LLC. Established to ready students for success in the PSB Entrepreneurship Competitions, activities may include membership in the student Colligate Entrepreneurship Organization, specialized innovation training, field trips to innovation centers and incubators, meetings with successful student/alumni and community entrepreneurs, and participation in various competitive activities.

Shared / required courses:
- CMAT 200 - Organizational Communication
- INFO 211 - Information Systems Concepts for Management

Explorers

Students still deciding on a major are connected to relevant campus resources and have opportunities to network with professionals across fields. Members will see how their strengths connect to majors/minors, explore how areas of study lead to career paths and create academic plans to ensure a successful future.

- Fall: IDS 280 - Special Topics: Exploring Self, Majors and Careers
- Spring: HIST 102 - World Civilizations II

Global Village

Students from a wealth of cultural backgrounds come together to ask how they can best understand life around the globe. Previous activities include make-your-own sushi night, a foreign film festival and a trip to New York City to visit the United Nations. Whether you were born on the other side of the world, have visited 20 countries or have never left Maryland, this community provides an ideal opportunity to grow, think, learn and laugh together.

- Fall: ENGL 103 - Composition & Research
- IDS 280 - Special Topics: Global Culture and Engagement
- Spring: HIST 103 - First-Year Seminar in World History

Green

Students interested in living “green” and/or majoring in an environmentally related major can join this eco-friendly LLC where you spend time kayaking on the local waterways, meeting area environmental experts and cultivating your own campus gardens.

- Fall: ENVR 102 - Introduction to Sustainability
- HIST 102 - World Civilizations II
- Spring: IDS 280 - Special Topics: Chesapeake Bay

Health Professions

Students interested in pursuing advanced professional health degrees such as medicine, dentistry, optometry and pharmacy get to know others who share the same passion for the health field. Through a variety of fun and engaging experiences, both in and out of class, students will learn that there is more to preparing for these programs than the classes that they take.

- Fall: BIOL 210 - Biology: Concepts and Methods
- CHEM 121 - General Chemistry I
- Spring: MATH 198: Calculus I for Biology and Medicine

Honors (5)

Students accepted to the Honors College (www.salisbury.edu/honors) may choose from five LLCs, each of which provides General Education credits and fulfills an essential Honors Core requirement. Early orientation to the program, field trips and unique cultural opportunities are offered.

Contact the dean of the Honors College directly to learn about course offerings for each community.

Social Justice

Geared toward pre-social work majors as well as students interested advocacy and volunteer efforts that promote social justice, human rights and empowerment of oppressed peoples in our society. Open to all majors, students will have the opportunity to engage in dynamic campus and community based initiatives that promote social justice and inclusivity.

- Fall: SOWK 200 - Introduction to the Social Work Profession
- CADR 200 - Foundations of Conflict and Conflict Resolution
- Spring: ENGL 300 - Special Topics: Social Justice in Literature

Performing Arts - Music

(Note: Students in the Performing Arts - Music and Theatre LLCs live together.)

Students don’t have to major in music to join this LLC. Anyone with an interest in playing and studying music is encouraged to join this community. From participating in SU’s performing ensembles to learning about sound mixing in SU’s high-tech audio labs, there are lots of opportunities to grow as a lover of music.

- Fall: MUSC 202 - Introduction to Music Technology
- PSYC 101 - Introduction to Psychology
- Spring: MATH 105 - Liberal Arts Mathematics: Music & Mathematics

Performing Arts - Theatre

(Note: Students in the Performing Arts - Music and Theatre LLCs live together.)

Students major and minors are invited to join this LLC to investigate the roles of theatre professionals and benefit from hands-on work in all aspects of theatre production.

- Fall: THEA 110 - Technical Production
- THEA 199 – Cornerstone Seminar
- Spring: THEA 126 - Costuming & Theatre Crafts

Science, Technology, Engineering & Mathematics (STEM)

Students in this LLC are pursuing exciting careers, from actuarial science to chemical engineering. Discover all the various science- and technology-related opportunities at SU while enjoying fun activities like a boat trip through the coastal bays and a visit to NASA Wallops Island.

- Fall: HIST 103 - First-Year Seminar in World History
- MATH 201 - Calculus I
- Spring: ENGL 103 - Composition & Research: Environmental Writing
- MATH 202 - Calculus II

Wellness

Students in this LLC are interested in living a balanced lifestyle and many are pursuing health professions majors like community health, exercise science, medical technology and respiratory therapy. With a holistic philosophy, this LLC promotes attention to mind, body and spirit.

- Fall: MATH 155 - Modern Statistics with Computer Analysis
- FTWL 106 - Lifelong Fitness and Wellness
- Spring: PSYC 101 - Introduction to Psychology
